Dated 11 November 2005

The events planned for IQBAL DAY by Iqbal Academy Scandinavia in Denmark.

Iqbal, the great poet-philosopher of the East, was born on the 9th. November 1877. Iqbal Academy Scandinavia is going to hold two sessions in his memory this year on the 25th. and 26th. of November, at Taastrup Medborgerhus and Hotel Admiral in Copenhagen. The director Iqbal Academy Pakistan will be our Chief Guest in both these functions. We have invited quite a number of prominent persons from Danish friends, writers and intellectuals. There will also be some guests from other European countries. The Director Søren Kierkegaard Research Centre, Dr. Cappelørn and the Ambassador of Pakistan have also been invited. The aim is to promote love, harmony and mutual understanding among the fellow citizens through Iqbal's message of love and development of collective Self in the present day context. It is the same message as given by Søren Kierkegaard, the great Danish Philosopher. Both these philosophers are unique among the biggest philosophers of the world in dealing with love, selfhood and existentialism. Their most effective lyrical style of expression takes the reader to the real world imagined by Iqbal and Kierkegaard, where love prevails, human dignity is maintained and individual honour is respected. This is the time that we must straighten our path in collective Life.
