

Programme for the LUCID Lecture Series:
A critical perspective on contemporary water governance approaches
(in association with the LUCID PhD course on Water Governance)
Week 2: Monday, October 18 – Friday, Thursday, October 22, 2010

1. Water and Food Security Governance: A field to fork perspective

Lecture by Jan Lundqvist

Monday, 18 October 10:00 -12:30, **Venue:** Biosfären, 2nd floor Geocentrum 1

Jan Lundqvist is Senior Scientific adviser at the Stockholm International Water Institute (SIWI). He worked as a professor at the Department of Water and Environmental Studies at Linköping University 1980 - 2009. His research orientation and expertise are related to issues converging around land and water resources management and the links to livelihoods and environmental concerns.

2. Governing processes of change towards integrated and adaptive water governance and management: A multi-level challenge

Lecture by Claudia Pahl-Wostl

Tuesday, 19 October 09:15 – 12:00, **Venue:** Biosfären, 2nd Floor Geocentrum 1

Claudia Pahl-Wostl is full professor for resources management at the Institute for Environmental Systems Research (USF) in Osnabrück, Germany. Before moving to USF Claudia Pahl-Wostl worked for more than ten years in the field of mathematical modelling, integrated assessment and human ecology at the Swiss Federal Institute for Science and Technology, Zürich and the Swiss Federal Institute for Aquatic Science and Technology, EAWAG, one of the leading water research institutes in Europe.

3. Global Climate Change and Challenges for International River Sharing Arrangements

Lecture by Ashok Swain

Wednesday, 20 October 09:15 – 12:00, **Venue:** Världen, 1st Floor Geocentrum 1

Ashok Swain is Professor of Peace and Conflict Research and Director of the Uppsala Centre for Sustainable Development. His research interests include environmental conflict and cooperation, democratic development and conflicts and environmental movements. This lecture will be given via video conference.

4. Water Governance in practice: Demystification for enhanced application

Lecture by Håkan Tropp

Thursday, 21 October 11:00 – 13:00, **Venue:** Hydrosfären, 2nd Floor Geocentrum 1

Håkan Tropp is the Project Director at the UNDP Water Governance Facility at the Stockholm International Water Institute. Dr. Tropp's areas of expertise are water governance reform and implementation, water adaptation, economics, financing, gender issues and stakeholder dialogue, especially in Africa, the Middle East and Asia. He also works with project design and management and workshop design and moderation.

Note: All venues are located in Geocentrum 1 at Sölvegatan 10, Lund University
