Kommentarer till utfallsrapport för SASNET 2006

- 124 699,60 kr av medel från SIDA har periodiserats i bokslutet och förts över som intäkt till år 2007 Detta motsvarar det resultat på +125 tkr som visas i den prelimir utfallsrapporten före periodisering.
- En del kostnader, som avser år 2006, hann inte bli betalda före ål
 utgång, utan kommer att belasta resultatet år 2007.
 Dessa avser kostnader i samband med SASNETs workshop på
 KI i slutet av november och uppgår till ca 20 tkr,
 samt ett beslutat planeringsbidrag på 20 tkr till Karlstads universi

Comments to SASNET financial outcome 2006 and suggested use of surplus

The economic result for 2006 can be found in the enclosed Excell document 'SASNET Utfall 2006 prel'. First look at the 'Utfall före periodisering' which shows the actual result.

- 1) Travel costs have been lower especially for the board, due to some far away members not attending the meetings, and due to the fact that Pamela Price's travel expenses have been taken from the '17002 Ref Grupp' account.
- 2) Gateway expenses have become more expensive than foreseen because after long discussions with the Lund University Administration (LUA), SASNET had to pay for the *Search function* for 2005 and 2006, totally 28 000 SEK. Earlier this cost was covered by LUA.
- 3) We decided to distribute five Guest Lecture Grants á SEK 20 000, but only four of these have been paid out.
- 4) The overall financial result is SEK 125 000. However, 40 000 refers to payments that should have been made in 2006:

Costs for Workshop at Karolinska in November 20 000

(Printed material, some travel cost, etc.)

One Guest Lecture Grant á 20 000 20 000

So the final result is +85000.

In order to cover these pending expenses the University has allowed us to transfer the 125 000 to 2007, see 'Utfall efter perdiodisering', in which the financial result of 2006 has been put at 0

- 5) We have a so called 'Myndighetskapital' amounting to SEK 71 000. This amount has been accumulated during the whole SASNET programme period (2000 2006), and is supposed to serve as a buffer for unforeseen expenses. However, with the limited budget of SASNET and no big capital expenses we do not see any real need for such a saving.
- 6) We suggest that the 'Myndighetskapital' and the surplus from 2006, totally 156 000 is used for expenses during 2007. This amount has now been included in the revised budget for 2007, which is enclosed.

Lund 24 January 2007
